■ Standard equipment □ Optional equipment

□ The M Sport package gives the vehicle an even sportier touch. In addition to an appearance sharpened by many details in the exterior and interior, the M Sport package guarantees an increase in driving pleasure. The M Sport suspension and the M Aerodynamics package for example noticeably optimise the driving dynamics.

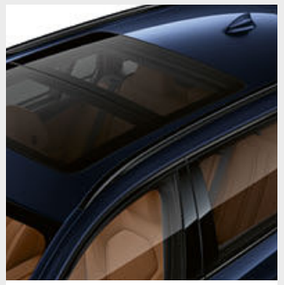
□ The Luxury Line shows the elegant side of the vehicle. Elegant design elements made of Chrome high-gloss give the exterior its exclusive appearance. The stylish impression is also present in the interior. Here first-class leather upholstery and high-quality interior trim finishers characterise luxury.

□ The BMW Live Cockpit Professional* with navigation function includes two high-quality displays consisting of a high-resolution 12.3" Control Display that can be operated by touch and a fully digital 12.3" instrument display. The BMW Operating System 7 can also be operated via the iDrive Touch Controller.

□ When open, the Panorama glass roof provides a great deal of fresh air. Closed, it creates a bright, light-flooded atmosphere in the interior. It opens and closes completely automatically at the push of a button or with the car key, and is equipped with slide and lift functions, roller sunblind and wind deflector.

□ BMW Individual high-gloss Shadow Line with extended contents[1] includes equipment features in black: Kidney grille frame and kidney grille slats in black high-gloss and tailpipe trims in Black Chrome.

□ In laser high-beam mode, BMW Laserlight* illuminates a range of up to 650 m, nearly twice as far as that of conventional headlights. Better visibility in the dark significantly increases safety. Blue accents and the lettering "BMW Laser" in the headlight also underline the technological standards and the sportiness of the vehicle.

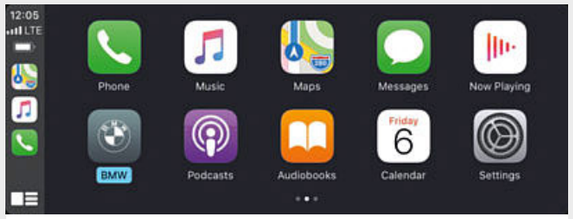


□ The premium-quality BMW Individual roof rails high-gloss Shadow Line is the key to a multifunctional BMW roof rack unit.

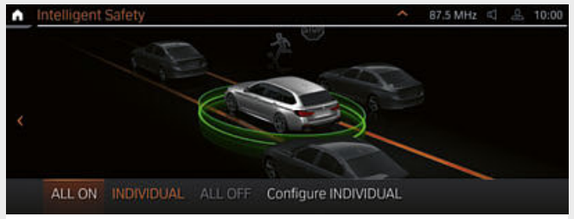
□ Your vehicle key? No need for that anymore. The Digital Key[4,*] exists on your smartphone, and you can share it with friends.

□ Should your BMW software be up to date? Should it be as simple as it is for your smartphone? Remote Software Upgrade* makes this possible.

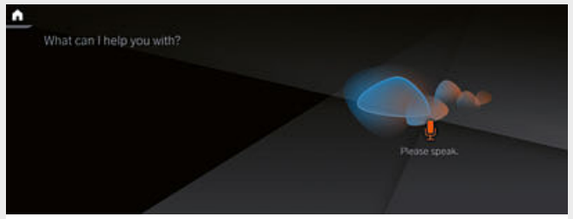
□ The luggage-compartment package* enhances the functionality of the luggage compartment, e.g. backrest tilt adjustment including cargo position and lashing rails.



□ Why go without the features of your smartphone in your BMW when you can continue operating it as usual? With smartphone integration[2,*], your vehicle supports Apple CarPlay and Android Auto by means of a wireless connection between your smartphone and the vehicle. This allows you to conveniently use familiar functions and various apps in the vehicle.



□ Driving Assistant Professional[3,*] offers optimum comfort and safety during critical or monotonous traffic situations. Apart from the contents of the Driving Assistant, it also includes Steering and Lane Control Assistant with extended functions, Lane Change and Emergency Stop Assistant and Lane Keeping Assistant with active side collision protection.



□ 'Hey BMW. Who are you?' Wouldn't it be incredible if your BMW was also your personal assistant? Communicate with your vehicle using the BMW Intelligent Personal Assistant*. It knows you, gets better every day and helps out whatever the situation. You also can assign your own personal activation word. It can explain everything about your vehicle and helps you to get to know your BMW even better.

□ The equipment package Parking Assistant Plus* makes parking and manoeuvring the vehicle easier. It features Surround View including Top View, Remote 3D View, PDC as well as a lateral parking aid, the Active PDC emergency braking function and the Parking Assistant with linear guidance[5] that provides fully automatic parking both parallel and perpendicular to the road.

[1] Only available in conjunction with M Sport package.
[2] Smartphone integration is permanently available in the vehicle. It includes Apple CarPlay and Android Auto. Android Auto linking is only possible in conjunction with a BMW Live Cockpit. Due to possible future technical developments (e.g. of mobile phones), the usability of the Apple CarPlay or Google Android Auto service cannot be guaranteed permanently. CarPlay is a trademark of Apple Inc. Android Auto is a trademark of Google LLC.
[3] Function may be limited in darkness, fog or bright glare.

[4] Prerequisite is a BMW ConnectedDrive account and a compatible smartphone. For customers with a non-compatible smartphone, a high-quality Key Card is provided. More information about the BMW Digital Key, e.g. regarding the compatibility of your smartphone, is available at **www.bmw.com/digitalkey**
[5] The driver is responsible for constantly monitoring the automated parking procedure in accordance with local road laws.

* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at **www.bmw.com** or at your BMW Partner.
Some ConnectedDrive Services may differ between countries. Please consult your local BMW partner for more information.

All dimensions in the technical drawing are given in millimetres.

The figures for performance, fuel consumption and CO_2 emissions refer to vehicles with standard transmission.

1 The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.
2 The actual total weight of the trailer must not exceed the maximum permitted trailer load, taking into account the maximum tow bar download.
3 Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 95 super unleaded petrol.
4 Range depends on the equipment and various factors. In particular: personal driving style, route characteristics, exterior temperature, heating/air conditioning, pre-conditioning and the chosen equipment.
5 Dependent on the local electricity infrastructure. Charging time corresponds to a 100% charge to maximum capacity.
6 The data for fuel consumption, CO_2 emissions and energy consumption are determined in accordance with the measurements processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. [For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO_2 emissions.]
7 The combined energy consumption depends on the selected wheel and tyre sizes.
8 Electronically limited.
9 This engine version is not available in all countries. For further information, please contact your local BMW Partner.
10 Model expected to be available from 11/2020.
11 Provisional figures; any missing figures were unavailable at the time of publication.
