FOR A LIFE WITH A DRIVE.

SPORTY DESIGN OCCUPIES SPACE. THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER SHOW SIZE AND AT THE SAME TIME LOOK VERY GOOD. THEY OFFER LOTS OF SPACE FOR YOUR ACTIVE LIFESTYLE, WITHOUT NEEDING TO SUBSTITUTE ANYTHING ELSE FOR IT: NEITHER IN THE BMW TYPICAL DRIVING DYNAMICS OR IN THE SPORTY AND EXPRESSIVE DESIGN.

IN ADDITION, YOU BENEFIT FROM FLEXIBILITY THAT ADAPTS TO YOUR NEEDS. REGARDLESS WHETHER YOU TRAVEL WITH SEVEN PEOPLE 1, 2 OR LOTS OF LUGGAGE; THE FUN DOESN'T REMAIN ON THE TRACK, BUT IS IN THE CENTRE – IN THE FRONT LEFT-HAND SIDE ON THE DRIVER'S SEAT. EXPERIENCE SPORTY FUNCTIONALITY IN THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER.

1 Available as optional equipment.
2 Only available for BMW 2 Series Gran Tourer.
DYNAMICS AND EFFICIENCY.

BMW EFFICIENT DYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

MORE POWER FROM LESS FUEL.

More power from three to 12 cylinders. Conserve less, experience more – the BMW TwinPower Turbo engines offer the greatest possible dynamic performance with the highest efficiency thanks to the latest injection systems, variable output control and sophisticated turbocharger technology. Whether diesel or petrol, and no matter how many cylinders, the engines from the BMW EfficientDynamics engine family allow markedly more agile power delivery and outstanding responsiveness even at low rpm, while being fuel-efficient and low in emissions.

MORE DRIVING PLEASURE, LESS EMISSIONS.

Approximately 33% less CO₂ emissions since 2000. BMW EfficientDynamics is a technology package that includes not only the drive, but rather the whole vehicle concept and intelligent energy management. Provided as standard in every BMW, a variety of innovative technologies contribute to continuously improving efficiency. Via engine efficiency measures, electrification, lightweight construction methods and optimised aerodynamics, BMW has managed to reduce the CO₂ emissions of its fleet by 33%.

MORE SPEED, LESS WEIGHT.

Lower weight with intelligent lightweight construction. Special consideration for every last detail – intelligent lightweight construction means that the optimal material is found and implemented for each part of the vehicle. With extremely light high-tech materials such as aluminium and carbon fibre, BMW EfficientLightweight is pursuing the goal of minimising vehicle weight. That leads to even more dynamic performance, increased stability and heightened vehicle safety and comfort.

AUTOMATIC START/STOP FUNCTION

The Automatic Start/Stop function1 switches off the engine when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam), which can reduce overall fuel consumption. When the driver presses down on the clutch (manual transmission) or takes their foot off the brake (Sed tromnic transmission), the engine automatically starts up again in a fraction of a second.

DRIVING EXPERIENCE CONTROL INCL. ECO PRO MODE

The Driving Experience Control lets the driver choose between the standard COMFORT mode, ECO PRO Mode which is geared towards efficiency, and SPORT mode which enables even more dynamic driving. ECO PRO mode adjusts the characteristics of the accelerator, Steptronic transmission, if present, and the heating/air conditioning settings to make the drive as fuel-efficient as possible.

OPTIMUM SHIFT INDICATOR

The Optimum Shift Indicator1 shows the most efficient gear for a given driving situation. In all BMW models, the display informs the driver of the current gear and gives shifting recommendations. This noticeably lowers fuel consumption through perfectly timed gearshifts, particularly in urban environments and over long distances.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

DYNAMICS AND EFFICIENCY.

THE ENGINE HIGHLIGHTS OF THE BMW 2 SERIES ACTIVE TOURER AND THE BMW 2 SERIES GRAN TOURER

BMW 218i Active Tourer
BMW TwinPower Turbo 3-cylinder petrol engine with 103 kW (140 hp) and 220 Nm torque
Acceleration 0–100 km/h: 9.5 s
Top speed: 205 km/h
Combined fuel consumption: 5.8 l/100km
Combined CO₂ emissions: 132 g/km

BMW 220d xDrive Active Tourer
BMW TwinPower Turbo 4-cylinder diesel engine with 140 kW (190 hp) and 400 Nm torque
Acceleration 0–100 km/h: 7.8 s
Top speed: 218 km/h
Combined fuel consumption: 4.8–4.9 l/100 km
Combined CO₂ emissions: 128–129 g/km

The intelligent BMW xDrive all-wheel drive system smoothly and variably distributes drive power to the front and rear wheels for maximum traction, driving dynamics and safety in every driving situation. For even better agility, the electronically controlled power distribution for instance counterbalances oversteer or understeer on bends.

The Performance Control intervenes through engine control and controlled braking when turning, so that more power is distributed to the outer wheels and less to the inner wheels. This means that the vehicle practically turns itself, thus increasing driving safety and comfort.

The Driving dynamics control systems support the driver in all difficult driving situations. The ABS prevents the wheels from being blocked, ensuring the car can be steered even during emergency braking. The anti-skid system Dynamic Stability Control (DSC) counteracts loss of grip in the wheels, automatically braking individual wheels.

The optional Variable sport steering2 with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and reduces the effort needed to steer when parking and turning.

The adaptive suspension1 with a lowering of ten millimetres combines driving dynamics and ride comfort with a high degree of safety. The driver has the option of preselecting the damping characteristics via the Driving Experience Control. Along with the standard COMFORT setting, SPORT mode is also available.

M Sport suspension1 – which includes a chassis which is lowered by 10 millimetres – is characterised by an athletic suspension design. In addition to shorter bearing springs, it also encompasses tighter damper settings.

The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurement processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO₂ emissions.

Further information on fuel consumption and CO₂ emissions can be found in technical data or consult your local BMW partner.

1 Not available for BMW 225xe iPerformance.
2 Available as optional equipment.
The safety package Driving Assistant\(^1, 2, 5\) includes camera-based assistance systems, such as Lane Departure Warning, Approach control warning, High-beam assistant and Speed Limit Info. The Approach control warning and Person warning with light city braking function warns of collisions at speeds between 10 and 60 km/h, while the Lane Departure Warning causes the steering wheel to vibrate as a warning when the lane is unintentionally changed at 70 km/h or over.

Speed Limit Info including No-overtaking indicator\(^1, 3\) detects current speed limits and no-overtaking zones and shows them on the Info Display in the instrument cluster and on the BMW Head-Up Display\(^1, 6\).

The Lane Departure Warning\(^1, 3\) detects lane markings and alerts the driver before an unintentional lane change at speeds above around 70 km/h by means of vibrations in the steering wheel. If the indicator is activated, meaning that a change of lane is intended, no warning is given.

The Driving Assistant Plus\(^1, 2, 5\) equipment provides a clear improvement in safety and comfort. It includes the Approach control and Person warning with light city braking function, Lane Departure Warning, High-beam assistant, Speed Limit Info, Camera-based cruise control with Stop&Go function as well as Traffic jam assistant.

The full-colour BMW Head-Up Display\(^1, 4\) projects all relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info incl. no-overtaking indicator and telephone and entertainment lists, among other things are displayed.

The Parking assistant\(^1, 5\) makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over steering, while you are responsible for selecting the correct gear, as well as pressing the accelerator and brake.

The Intelligent Emergency Call automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed – without the use of a mobile phone. It transmits information regarding the vehicle’s current location and the severity of the accident. The Intelligent Emergency Call can also be triggered manually in case other road users require help, for example.

Traffic jam assistant\(^4, 5\) relieves you in monotonous traffic situations on the motorway. At speeds of up to 60 km/h, the system lets the car simply “glide along” with the other cars in dense traffic, making traffic jams less stressful. It automatically maintains the distance from the vehicle ahead and regulates the car’s speed down to a standstill – as well as providing steering support.

The Adaptive LED headlights include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective Beam, cornering lights, daytime running lights and Adaptive headlights with variable light control for excellent illumination of the road ahead and better visibility in the dark.

Dynamic Stability Control (DSC) continuously assesses the vehicle’s movements using various sensors and stabilises the car with engine and braking regulation when unstable driving conditions are detected. Auxiliary functions include braking readiness, brake drying by the braking system in wet conditions and the Hill-Start assistant.

Approach control warning with light city braking function\(^3\) warns of potentially critical situations to help prevent accidents. If there is a risk of collision with a vehicle moving or standing ahead, it provides a two-stage warning and, if necessary, pre-conditions the brakes for increased responsiveness. In case of an emergency, the system initiates braking, ensuring that the collision speed is significantly reduced.

Head airbags for the first and second seat row complete the vehicle’s airbag equipment. With a protective sail that deflects flying shards, they create a highly effective head protection system for the window area that also protects the rear passengers in the event of a side collision.

\(^1\) Available as optional equipment
\(^2\) Function may be limited in darkness, fog or bright glare.
\(^3\) Part of the Driving Assistant and Driving Assistant Plus packages.
\(^4\) Only available in conjunction with additional equipment.
\(^5\) The information in the BMW Head-Up Display is not fully visible when viewed through polarised sunglasses. The exact content shown will depend on the equipment options chosen. Further optional equipment is required for content to be displayed.
\(^6\) Not available for 216i.
CONNECTIVITY AND INFOTAINMENT.

BMW ConnectedDrive
Connected to be free.

MORE THAN 20 SERVICES AND APPS IN THE BMW CONNECTED DRIVE STORE.

ConnectedDrive Services open the gate to the digital world of BMW. Use vehicle apps such as news, weather, office or online search on the go and be well informed at all times. ConnectedDrive Services form the basis to order further digital services such as Concierge Services or Online Entertainment from the ConnectedDrive Store – always, everywhere, simply and flexibly.

IN TOUCH 24/7 WITH BMW CONNECTED.

Are the doors of my car really locked, when should I leave my office to arrive in time for dinner at the fancy Italian restaurant and how will I find my way there? As your personal mobility assistant, the BMW Connected App can easily help you with all these questions. It connects you directly with your car, giving you access before and during your trip to numerous functions, which make every drive simpler and more comfortable.

IN THE BMW 2 SERIES ACTIVE TOURER AND GRAN TOURER.

APPLE CAR PLAY® PREPARATION

Preparation 1, 2 for Apple CarPlay® supports the convenient and wireless use of selected iPhone® functions in the vehicle. This allows smartphone content and functions such as music, messages/text messages, telephony, Siri, navigation and selected third-party apps to be displayed and operated via the vehicle’s user interface and via Voice control.

CONCIERGE SERVICE

Will it be sunny tomorrow in Rome? When is my flight and where is the best restaurant in the city? Concierge Services 1 are there to help when you are travelling and can support you with any request at the touch of a button – individual, personal and fast. Wherever you are, whatever you need. The term is three years.

TIME-TO-LEAVE NOTIFICATION

BMW ConnectedDrive 3 will inform you of the calculated departure time via a compatible smartphone or smart watch to ensure you arrive at your next destination on time. The system calculates the suggested departure time based on real-time traffic data.

The Comfort access system 4 allows passengers to enter the car via the front doors and to open the tailgate without having to actively use the key. The key must simply be nearby, in the driver’s trouser pocket for example. To unlock the doors, it is only necessary to touch the handles or the tailgate button.

Thanks to the versatile adjustment options for the rear seats, the rear and luggage compartment can be used even more flexibly. The backrests can be folded down in a 40/20/40 ratio, or they can be positioned at either of six angles. The seats can be moved individually by 130 millimetres 6, 7 in a 60:40 ratio.

The third row of seats 5, with two individually foldable and forward-facing seats, offers room for two additional passengers. To ensure good access, the second row of seats can be folded forwards with the Easy-Entry function.

The Storage compartment package offers additional storage options in the interior and luggage compartment. Among other things, it includes a centre armrest for the rear seat with two cupholders, and nets on the front-seat backrests. A double USB port in the rear centre console and a 12V socket in the luggage compartment offer additional connection options for electrical devices.

Electronic parking brake is conveniently activated via a button. Thanks to this space-saving button, the centre console has more room available for other things.

The Sun protection glazing for the rear window 8 and tinted rear side windows prevent the interior from heating up when exposed to direct sunlight. The darker glazing behind the B-pillars absorbs more sunlight. The tinted glazing does not hinder outward visibility, but it does protect the rear seats against prying eyes.

The Luggage-compartment separating net 9 can be attached behind the rear seats to prevent objects falling forwards into the passenger area (during hard braking, for example). When the rear seats are folded down, it can also be attached behind the front seats.

The electric seat adjustment 10 makes it particularly convenient and easy to adjust the driver and front passenger seats. The memory function enables drivers to save and retrieve their desired settings for the driver’s seat and exterior mirrors at the push of a button.

**BASE.**

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

The interior trim finishers in Oxide Silver dark matt with accent in Black high-gloss add to the modern aesthetic appeal of the cockpit, which is clearly directed towards the driver.

Selected base model equipment features:

- 16" light alloy wheels V-spoke style 471,
- Halogen headlights
- Air conditioning
- Radio media with 6.5" LCD colour display and USB port
- Driving Experience Control incl. ECO PRO
- Seat adjustment for rear seat
- Storage compartment package

- The interior trim finishers in Oxide Silver dark matt with accent in Black high-gloss add to the modern aesthetic appeal of the cockpit, which is clearly directed towards the driver.
- The standard seats in Cloth 'Grid' Anthracite combine a modern look with high seating comfort on every trip.

Luxury Line exterior equipment:

- BMW kidney grille with twelve exclusively designed vertical slats with front sides in Chrome high-gloss
- Front bumper with specific design elements in Chrome high-gloss
- 17" light alloy wheels Multi-spoke style 547, other wheels available
- Side window surrounds and window recess finisher in Aluminium anodised, mirror base and mirror foot in Black matt
- Rear bumper with specific design elements in Chrome high-gloss

Luxury Line interior equipment:

- Door sill finishers in aluminium, front, with “BMW” lettering
- Seats in Leather Dakota Mocha with perforations and stitching in Cockpit Mocha incl. multifunction buttons
- Sport leather steering wheel incl. multifunction buttons
- Car key with Chrome detailing
- Interior trim finishers in Fine-wood trim ‘Fineline’ Stream with accent in Pearl Chrome, other trims available
- Exclusive LED optical fibre in the door trim
- Dashboard and centre console with contrast stitching (to match upholstery colour)

1 Not available for 225xe iPerformance Active Tourer.
2 Not available for 220i, 218d, 218d xDrive, 220d and 220d xDrive Gran Tourer.
3 Leather steering wheel standard for 216i, 218i, 216d, 218d and 218d xDrive.
4 Automatic air conditioning standard for 225i and 225i xDrive.
5 Standard for 218i and 218d xDrive.
6 Not available for 225xe iPerformance.
The sport leather steering wheel with multifunction buttons sets a sign in the interior that is just as sporty as the interior trim finishers in Aluminium, finely brushed lengthwise with accent in Pearl Chrome.

Sport Line exterior equipment:
- BMW kidney grille with vertical slats, with front sides in Black high-gloss
- Front bumper with specific design elements in Black high-gloss
- 17" light alloy wheels Double-spoke style 549, other wheels available
- Mirror caps in body colour, alternatively in Black
- Rear bumper with specific design elements in Black high-gloss

Sport Line interior equipment:
- Door sill finishers in aluminium, front, with "BMW" lettering
- Sport seats for driver and front passenger in Cloth/Sensatec combination Anthracite/accents Grey or accent Orange; other upholsteries available
- Sport leather steering wheel incl. multifunction
- Car key with Chrome detailing
- Interior trim finishers in Black high-gloss with accent in Pearl Chrome; other trims available
- Exclusive LED optical fibre in the door trims
- Dashboard and centre console with contrast stitching
  (to match upholstery colour)
M SPORT PACKAGE.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

The M leather steering wheel with multifunction buttons and interior trim finishers in Aluminium Hexagon with accent in Pearl Chrome combine sporty functionality with dynamic ambience.

M Sport package exterior equipment:
- M Aerodynamics package with front apron, side skirts and rear apron with diffuser insert in Dark Shadow metallic
- BMW kidney grille with vertical slats, with front sides in Black high-gloss
- LED fog lights
- 17" M light alloy wheels Double-spoke style 483 M, alternatively 18" M light alloy wheels Double-spoke style 486 M
- M Sport suspension1, lowered, alternatively Standard running gear
- BMW Individual high-gloss Shadow Line, alternatively Chrome Line Exterior
- M designation on the sides
- Exclusive paintwork in Estoril Blue metallic, other paintworks available

*Not available for 225xe iPerformance.

M Sport package interior equipment:
- M door sill finishers front and M driver footrest
- Sports seats for driver and front passenger in Cloth 'Micro Hexagon'/Alcantara Anthracite1; other upholsteries available
- M leather steering wheel with multifunction buttons
- BMW Individual headliner anthracite
- Dashboard and centre console with contrast stitching
- Interior trim finishers in Aluminium Hexagon with accent in Pearl Chrome; other trims available
- Shortened gear lever with M designation2
- Exclusive LED optical fibre in the door trim
- Car key with exclusive M designation

17" M light alloy wheels Double-spoke style 483 M, 7.5J x 17, 205/55 R17 tyres.

Black Dakota leather sport seats with perforation and blue accents create a pure race track atmosphere in the interior.

Black Dakota leather sport seats with perforation and blue accents create a pure race track atmosphere in the interior.

*Only in conjunction with manual 6-speed transmission.
The BMW 225xe Active Tourer Plug-in Hybrid combines a plug-in hybrid BMW TwinPower Turbo 3-cylinder petrol engine with 100 kW (136 hp) and a 65 kW (88 hp) electric motor, resulting in a system output of 165 kW (224 hp). The standard electric xDrive automatically provides excellent traction and dependable directional stability. Intelligent energy management coordinates the interaction of all BMW drive components. Depending on the selected drive mode and the battery's charging status, the electric motor can power the vehicle by itself or support the internal combustion engine. During coasting and braking, the motor even transforms kinetic energy into electric energy, which is stored in the lithium-ion high-voltage battery for use by the electric drive system. Running purely on electricity, the vehicle has a range of up to 41 km and a maximum speed of 125 km/h. Its combined fuel consumption is 2.3 – 2.5 l/100 km with CO2 emissions of 52 – 57 g/km. The vehicle can be recharged at home using any domestic power socket or even more conveniently with a BMW i Wallbox. When on the move, the BMW can be recharged at public charging stations.

Discover more with the new BMW catalogue app. Now available for your smartphone and tablet.

The full-colour BMW Head-Up Display projects all relevant driving information onto a panel in the driver’s field of vision, which means they can remain focused on the road. Current speed, directions from the navigation system, Speed Limit Info incl. no-overtaking indicator and telephone and entertainment lists, among other things are displayed.

The Rear view camera enables improved orientation when reversing at speeds below 5 km/h, for example when parking. It shows the area behind the car on the Control Display. Interactive track lines for measuring distances and turning circles assist you when manoeuvring. Obstacles are marked in colour.

The automatic air conditioning with two-zone control and automatic temperature control features separate controls for the driver and front passenger. It also includes Automatic Air Recirculation (AAR), a micro-activated carbon particulate filter, a fogging and solar sensor, as well as rear air vents.

The Harman Kardon 7.1 Surround Sound system, with twelve speakers optimally designed to suit the interior’s sound characteristics, guarantees an exceptional music experience. Tweeters and subwoofers deliver a brilliant, powerful range of sound. Elegant aluminium loudspeaker fronts feature “Harman/Kardon” lettering for a high-class look.

Telephony with wireless charging includes a wireless charging dock and an additional USB port. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. Also included are: Bluetooth Office and the reception. Two mobile telephones and an audio player can be connected and an additional USB port. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected and an additional USB port. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected.

Preparation supports Apple CarPlay®. This allows smartphone content and functions such as music, Messages, contact lists, telephone, Siri, navigation, and selected third-party apps to be displayed and operated via the vehicle’s user interface and via Voice control.

Preparation supports Apple CarPlay®. This allows smartphone content and functions such as music, Messages, contact lists, telephone, Siri, navigation, and selected third-party apps to be displayed and operated via the vehicle’s user interface and via Voice control.

The Driving Assistant Plus equipment provides a clear improvement in safety and comfort; it includes the Approach control and Pedestrian warning with light city braking function, Lane Departure Warning, High-beam assistant, Speed Limit Info, Camera-based cruise control with Stop&Go function as well as Traffic jam assistant.

Navigation Plus features a BMW Head-Up Display, an iDrive Touch Controller, a built-in 8.8” touch display and an instrument cluster with high-resolution 5.7” TFT display. The system is operated intuitively using either the iDrive Touch Controller, the direct menu control buttons and six or eight functional bookmarks, voice control or the touchscreen with interactive tiles.

The Parking Assistant makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over.

Two mobile telephones and an audio player can be connected and an additional USB port. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected.
- Preparation supports Apple CarPlay®. This allows smartphone content and functions such as music, Messages, contact lists, telephone, Siri, navigation, and selected third-party apps to be displayed and operated via the vehicle’s user interface and via Voice control.
- The Driving Assistant Plus equipment provides a clear improvement in safety and comfort; it includes the Approach control and Pedestrian warning with light city braking function, Lane Departure Warning, High-beam assistant, Speed Limit Info, Camera-based cruise control with Stop&Go function as well as Traffic jam assistant.
- Navigation Plus features a BMW Head-Up Display, an iDrive Touch Controller, a built-in 8.8” touch display and an instrument cluster with high-resolution 5.7” TFT display. The system is operated intuitively using either the iDrive Touch Controller, the direct menu control buttons and six or eight functional bookmarks, voice control or the touchscreen with interactive tiles.
- The Parking Assistant makes parallel parking easier. The system works by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over by measuring potential spaces while driving past them at a low speed. When a suitable space has been found, the Parking Assistant takes over.

1 The information in the BMW Head-Up Display is not fully visible when viewed through polarized sunglasses. The exact content shown will depend on the equipment options chosen. Further optional equipment is required for content to be displayed.
2 Standard for 225xe iPerformance.
3 Apple CarPlay® compatibility and supported functions depend on the model year and the software installed on the iPhone®. When the Apple CarPlay® preparation is in use, selected vehicle data is transferred to the phone. The mobile phone manufacturer is responsible for any further processing of the data.
4 Supports inductive charging for QI-compatible mobile phones. Special charging cases are available from Original BMW Accessories for selected smartphones that do not support the QI standard for inductive charging. The WiFi hotspot fulfils all in-vehicle requirements for use of the internet with the maximum LTE standard. Usage is subject to cost.
5 Use is subject to cost.
6 Function may be limited in darkness, fog or bright glare.
7 Only available in conjunction with additional equipment.
8 Only available in conjunction with additional equipment.

These colour samples are intended as an initial guide to the colours and materials available for your BMW. However, experience has shown that printed versions of paint, upholstery and interior trim colours cannot in all cases faithfully reproduce the appearance of the original colour. Please discuss your preferred colour choices with your BMW partner or dealership. There you can also see original samples and be assisted with special requests.

1 Available as standard for the M Sport package.
2 Optionally available for the M Sport package.
3 Exclusively available for the M Sport package.
Please note that even normal long or short-term use can lead to permanent upholstery damage. This can be caused in particular by non-colourfast clothing. The interior colour is dependent on the chosen upholstery colour.

The interior colour is dependent on the chosen upholstery colour.
